#### Latest News

##### Data Centers Moving to Iron Mountain's Underground Vaults

This move to be completed in August 2006 will ensure that our customers have the highest level of data protection against all electronic and physical threats along with 24/7 availability.

### Backup Plans

#### Online Backup and Recovery Plans:

**Online backup plans from BackUp Solutions ensure efficient and automated backups that are stored securely off-site and away from your computer.**

We offer data backup plans and full system backup plans to suit any type of computer user. From the business professional to the home office user, to the student, we are the online backup solution for safe and, reliable data backup services.

#### Online Data Backup

The data only service will automatically select all of your important data files for you, but does not backup your program files. The file selection can be easily adjusted to include or exclude files as needed.

#### Full System Backup

Full system backups ensure that all system and data files are backed up on a timely basis and provide full system recovery in the event of computer failure, theft, or disaster recovery. and includes the iHeal feature to restore all Windows settings, programs and data files to your computer.

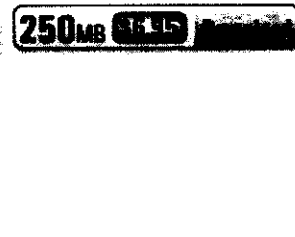

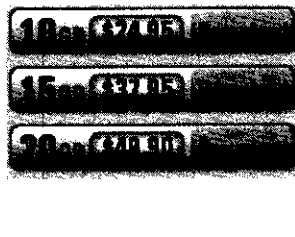

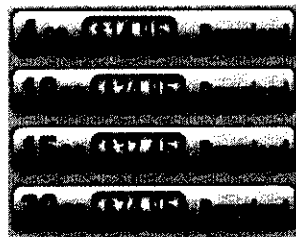

#### Limited Data Backup

Limited data selection of My Documents and Quicken/Quickbooks files on you computer for the home or small business with a limited amount of data. Additional files can be selected or deselected from the backup as needed.
