Tomorrow's Gondolier is publishing a story about a brief filed on behalf of "winning" plaintiff Lorenzo through the freedom on information act. The claim is that the "Guilty Government Body" should foot the bill when citizens win. Who has become the "Guilty Government Body" other than the innocent "citizens" of Venice. We are the ones that will be burdened with paying the fees of the "winner", Lorenzo and for the people that broke the law. Judge Robert Bennett will hold a hearing on August 21st to determine if release additional information to support the "victor's" costs and "winnings" against our elected officials is warranted. The plaintiff and the defendants have already cut their deal by pleading the citizens of Venice guilty. Aren't the citizens of Venice now being labeled the "Guilty Government Body"? Shouldn't we Venice citizens be represented in court? But by who though? Attorneys for the elected officials are more than willing to let the innocent "citizens" of Venice pay all the bills. We're the losers in this miscarriage of justice.
