Bernie, your numbers are ALL WRONG, get updated! There are now about 140 double lots NOT paying the Park Fee! (and still can claim full priveledges) but would be Grandfathered in if The Law were changed. Even the Fire Department puts an assesment on an empty lot! The 1291 is from 2 years ago (and should NOT have been used in the Budget) the number I have for this year is 1282 (obtained from the Manatee County Assesment Dept.). Since 2002 we have lost 7 Park Fee payers, 7 X \$722 = \$5,054 loss this year alone & the loss will continue. Each year there are a couple of less lots paying the fee, yet have the same basic costs of operating the facilities! Facts are a little harder to obtain than opinions!
Kindest regards, Harry Splett
