

**Why did the TE Board lie about the Kitchen being inspected, licensed and having food handling certificates?**

**What about non-501 3c clubs and individuals not paying taxes?**

**How much will it cost in taxes and fines for Cooks night Out, BINGO Kitchen?**

**Check with the STATE OF FL. tax office, located right off of Cattleman RD.**

**Who pays that, the club or you?**

**How much did it cost every taxpayer to supplement Nan's private non-licensed catering business?**

**How much has it cost the taxpayers in legal fees not approved by the board to fight the STATE LAW?**

**What is the fine for TE allowing clubs to use the tax # of the District?**

**What about the church using it? Does the church have the permit to be at TE, R16 Resident ZONE?**

**Will the District maintain its government tax-free status?**

**Why has the board not started the process to make the changes necessary for a licensed kitchen? Oh, I forgot TE has not had a board meeting for months, because the board is on vacation for 3-4 months. If you are taking**

**advantage of the HOME STEAD LAW you must be a FL. resident!**

**It does not matter if every club has a whole membership of food handlers. You cannot serve out of a non-licensed kitchen. License to TE not a club.**

**The TE District Board must vote to seek a license. Hard vote, after no less than 6 board members have failed to comply with sunshine law, as more than one board member discussed inspection and were physically present when inspector was inspecting at more than one inspection! Board self-reported on tape! What is that going to cost you? What is the learning curve for this board in dollars?**

**Why do some folks feel entitled to violate State law and ask you to pay for that choice?**

**How special do you feel when paying your taxes that have directly increased to protect the entitled special interest?**

**How do you personally decide which laws to obey? Do you encourage your family to eat at only non-licensed kitchens????**

**NOTE IF TE WERE A TRAILER PARK THE COUNTY HEALTH DEPT. WOULD BE INSPECTING OUR KITCHEN!**

**TE WOULD NOT BE IN COURT FOR THE LAWSUIT IF TE WERE A MOBILE HOME PARK. SUNSHINE LAW WOULD NOT APPLY!**

**When this board took office your taxes were \$746.00. HOW MUCH WILL THEY BE THIS YEAR?**

**BINGO papers filed with the State, by the board, say TE is a mobile home park, but your tax papers from the county do not say Mobile Home Park. What is that going to cost you?**

**The lawsuit cost continue to rise, maybe someone should start reading the Charter, Bylaws and STAE LAWS and stop listening to the special interest groups. If you are keeping score the board has been and continues to be WRONG. What's that costing you? Over a million! HOW DO YOU SPEND Millions and not know you need a kitchen license????????????????????**
